Freelance & Junior WordPress Developer at Pixelaar, Prestige Brokers, Fiverr and Upwork
Dhaka, Bangladesh

Summary

I build WordPress products that millions of sites run on. Over 12 years, I've taken plugins from idea to production, including ElementsKit (700K to ~2M active installs), GutenKit (80K+) and PopupKit (70K+). What I do best:→ Architect high-performance WordPress plugins in PHP, JavaScript, TypeScript and React→ Build Gutenberg blocks, REST APIs, WooCommerce and payment gateway integrations→ Lead and mentor engineering teams (15+ engineers) toward cleaner code, faster releases and fewer bugsProof:• +35% performance and +60% feature adoption on ElementsKit• 30% smaller bug backlog across product teams• 65+ client sites delivered as sole developer; Top Rated on Upwork, 150+ Fiverr projectsMost recently: WordPress Developer at WPMU DEV, shipping payment gateway integrations and complex fixes in Forminator and reviewing PRs.Open to WordPress and Full-Stack roles. Message me or email raazon@gmail.com | raazon.comCore stack: WordPress, PHP, JavaScript, TypeScript, React.js, Gutenberg, REST API, WooCommerce, Elementor, MySQL, HTML, CSS, jQuery, Git, AI/LLM Integration

Experience

WPMU DEV

WordPress Developer

January 2026 - August 2026 (8 months)

- Delivered new features, complex bug fixes and payment gateway integrations in Forminator (600K+ active installs), reducing bug support tickets by 80% by reproducing edge cases and shipping targeted PHP/JS fixes.
- Protected code quality across the team by reviewing 30+ pull requests per month, cutting regressions by 15% through consistent review standards.
- Resolved 20+ escalated customer-facing issues, reducing average resolution time by 25% by pairing with support engineers on root-cause debugging.

Roxnor

5 years 1 month

Senior Full-Stack Web Developer

July 2023 - January 2026 (2 years 7 months)

Dhaka, Bangladesh

- Grew ElementsKit from 700K to ~2M active installs (~2.8x), improving performance 35% and feature adoption 60%, by leading roadmap prioritization and performance refactoring.
- Launched GutenKit (2024), PopupKit (2025) and TableKit (2025), reaching 80K+, 70K+ and 3K+ active installs within 1.5 year, by owning architecture, build and release from concept to production.
- Mentored 15+ engineers across product teams, cutting the bug backlog by 30% and speeding up deployments by introducing standardized code reviews, CI checks, and a streamlined release process.

Full-Stack Web Developer

January 2021 - July 2023 (2 years 7 months)

Amigo 14 Square, Asad Ave, Dhaka 1207

- Contributed 25+ features to ShopEngine, growing it to 100K+ active installs, by building WooCommerce features in PHP, React and Gutenberg.
- Led a 3-person team to deliver the Bazaar theme on schedule with 300+ sales by implementing new features, structured sprint planning and code reviews.
- Resolved 50+ support tickets per week at 98% satisfaction, feeding recurring issues into product fixes that reduced overall ticket volume by 25%.

ITclan BD

Full-Stack WordPress Developer

November 2017 - January 2021 (3 years 3 months)

274, Shah Kabir Mazar Road Chalabon, Dokkhin Khan Dhaka-1230

- Delivered 65+ WordPress sites as sole developer by converting PSD and Figma designs and managing each project end to end.
- Cut client delivery time 20% by automating deployment scripts and streamlining the build process.
- Connected WordPress data (WooCommerce, Events) to Laravel web and mobile apps by building REST API integrations, supporting high-volume user traffic and order processing.
- Kept all managed sites secure and fast by running server administration, automated backups, and performance tuning, achieving near 100% uptime and optimal page load speeds.

Pixelaar, Prestige Brokers, Fiverr and Upwork
Freelance & Junior WordPress Developer
January 2012 - October 2017 (5 years 10 months)

- Achieved Upwork Top Rated status across 92 jobs and 809 hours by delivering full-stack WordPress builds.
- Completed 150+ Fiverr projects with consistent five-star reviews, reaching Level 2 Seller.
- Built 3 premium ThemeForest themes and custom Elementor and WPBakery widgets in PHP, JavaScript and CSS.
- Developed and maintained custom features and security updates across multiple WordPress sites; converted 10+ landing pages from design to code.
- Delivered responsive, pixel-accurate PSD-to-HTML builds and custom WordPress features.

Education

Northern University Bangladesh
Bachelor of Engineering - BE, Electrical and Electronics Engineering · (July 2012 - June 2018)
